

We Believe:

5. God's Word is inspired, and will equip everyone to do His will:

- God's Word (The Bible) is inspired (ultimately authored) by God. God communicates His message through real people who have experiences, flawed intellect and personalities. But through all of that God communicates himself, His will and His way (2 Timothy 3:16-17).
- God will help us to understand what we need to understand when we need to understand it. We should not worry if we don't understand everything we read in God's Word, no one does. Intense study of God's Word only shows us how little we know and understand about God's Word. But when we need to understand God's Word, God will reveal it to us.
- God's Word must be read, studied and meditated on. Only through intense/consistent study will we know God's will and way, and His promise to meet our need.
- God's Word is the only thing we can count on forever. All else in this world will deteriorate and be destroyed, but the Word of God is eternal (Isaiah 40:8).
- God's Word cuts deep, all the way to the bone. God Word communicates where we are wrong, and where we are right. It shows us where we are destroying ourselves, and how to get back on track (Hebrews 4:12).
- We will never know God, or the eternal desire and love He has for us if we do not read, study and live out His Word.
